

Irene Norstedt

Head of Unit – Health, Directorate General for Research and Innovation, European Commission

Irene Norstedt works at the European Commission, where she is Head of the Innovative and Personalised Medicine Unit at the Directorate-General for Research and Innovation.

She has been at the European Commission since 1996, and was instrumental in the creation of IMI in 2008.

From the 16 December 2014 to 15 September 2015, Irene served as Acting Executive Director of the Innovative Medicines Initiative.

Prior to joining the European Commission, she worked for the Swedish life science company Biacore AB and at the Swedish embassy in London.

Irene studied biotechnology and polymer science, and holds a Master of Science (MSc) in Chemical Engineering.
