

Pilar Aguar

Head of Unit “Innovative Tools, Technologies and Concepts in Health Research” in the Directorate-General for Research and Innovation, European Commission

Pilar Aguar joined the European Commission in 2001, auditing the performance of the national authorities and food safety control systems.

From 2005 to 2012, she was involved in the development and management of European Research programmes.

From 2012, she led the Chemicals Assessment and Testing Unit at the Joint Research Centre, developing methodologies for testing the safety of chemicals and consumer products. Later, she became Head of the Consumer Products Safety Unit, providing scientific support in the framework of EU legislation on safety of nanomaterials and nanomedicines, health technologies and consumer products.

Currently she leads the Unit "Innovative Tools, Technologies and Concepts in Health Research" in the Directorate-General for Research and Innovation.

Pilar holds degrees in Pharmacy and Food Science and Technology with additional studies in Toxicology.
