

Klára Horváth

IMI States Representatives Group

Klára Horváth represents Hungary in the IMI States Representative Group since 2015.

Klára is the National Contact Point for Health, Demographic Change and Wellbeing (SC1) and she is the national delegate in the SC1 Programme Committee. She works for the National Research, Development and Innovation (NKFI) Office since 2009.

The NKFI Office develops the national strategy for scientific research, development and innovation as a policy-maker, manages the National Research, Development and Innovation Fund as a funding agency and represents the Government of Hungary as well as the Hungarian researcher community in international and European RDI organisations.

Previous positions:

- National Delegate in the Management Board of the Joint Programming initiative on Neurodegenerative Disease Research (2015-)
- National Contact Point for the "Food, Agriculture & Fisheries and Biotechnology" in FP7 (2009-2012)
- Marie Curie Postdoc Fellow at University of York, UK (2006-2009)
- Scientist at the Royal Veterinary and Agricultural University, Denmark (2001-2006)

Fields of expertise

- Project partner in several ERA-NET projects
- Project Monitoring
- Project Management
- PhD in Molecular Biophysics, Denmark
- Master in Physics, Eötvös University, Hungary
