

# FINAL ANNUAL ACCOUNTS OF THE INNOVATIVE MEDICINES INITIATIVE JOINT UNDERTAKING FOR THE YEAR 2013

The annual accounts of the Innovative Medicines Initiative Joint Undertaking for the year 2013 have been prepared in accordance with the Title IX of the Financial Regulation applicable to the general budget of the European Union, the accounting rules adopted by the Commission's Accounting Officer and the accounting principles and methods adopted by myself.

I acknowledge my responsibility for the preparation and presentation of the annual accounts of the Innovative Medicines Initiative Joint Undertaking in accordance with Article 68 of the Financial Regulation.

I have obtained from the authorising officer, who certified its reliability, all the information necessary for the production of the accounts that show the Innovative Medicines Initiative Joint Undertaking's assets and liabilities and the budgetary implementation.

I hereby certify that based on this information, and on such checks as I deemed necessary to sign off the accounts, I have a reasonable assurance that the accounts present fairly, in all material aspects, the financial position, the results of the operations and the cash-flow of the Innovative Medicines Initiative Joint Undertaking.

#### 2 ACCOUNTING RULES

The financial statements comply with the accountancy provisions adopted by the Accountant of the European Commission in accordance with the General Financial Regulation art. 133 and 185, and the Financial Rules of the Innovative Medicines Initiative Joint Undertaking, especially section 3, article 44.

During the process of drawing up this report, the general accounting principles set out by article 124 of the Financial Regulation are applied:

- Going concern basis
- Prudence
- Consistent accounting method
- Comparability of information
- Materiality
- No netting
- Reality over appearance
- Accrual-based

#### > Tangible and intangible fixed assets

Tangible and intangible fixed assets are evaluated at their purchased costs in euro. In case of purchase in foreign currency, the amounts are converted into euro with the exchange rate in force at the time of the transaction. The booking value of an asset is considered as being equal to its purchase price or production costs, including negative or positive revaluation amounts.

According to article 210 of the Implementing rules and article 90 of the Financial regulation, "All items acquired whose purchase price or production cost is EUR 420 or more, with a period of use greater than one year, and which are not consumables shall be entered in the inventory and recorded in the fixed assets accounts."

The ancillary costs are included in the asset value or recognised as a distinct asset if they will generate a future economic advantage. Any repair or maintenance is entered in charge in the book year when it occurs.

The depreciation is calculated according to the straight-line method in order to distribute the cost during the estimated lifetime of the asset.

According to EC accounting rule n° 17 regarding "Revenue from non-exchange transactions (taxes and transfers)", gifts and donations are recognised as assets and revenue when it is probable the future economic benefits or service potential will flow to the entity and the fair value of the assets can be measured reliably.

The assets might be subject to positive or negative adjustments at the annual accounts closure date.

#### Internally generated intangible assets

EU Accounting rule Nr 6 foresees that detailed internal and external costs linked to internally developed intangible assets should be tracked and disclosed in the annual accounts. The threshold is EUR 500.000.

#### > <u>Pre-financing.</u>

The pre-financing is an advance payment, paid to the Consortium at the beginning of the project. It is paid by IMI to the Managing entity, which on its turn pays it to the beneficiaries. Pre-financing is usually calculated as follows (excepted some cases where the amount may be higher):

(maximum IMI JU contribution / Number of reporting periods) x 1.6.

The cumulative amount of the pre-financing and interim payments may not exceed 90% of the maximum IMI JU financial contribution of a given project (Article II.6.2).

Accordingly, when total amount of pre-financing and accepted costs claims exceed 90% of the maximum IMI JU financial contribution of a given project, the amount in excess is "cleared" on the pre-financing.

Remaining the property of the IMI JU until the final payment (Article II.18 of IMI Grant agreement), prefinancing is booked as long term (non-current asset) due to the duration of the projects which is more than 1 year.

When a pre-financing is expected to be totally or partially cleared during the following year, the corresponding amount will be reclassified, at year end to short term pre-financing. The ceiling of 90% is taken in account by reducing the reclassified short-term pre-financings and increasing the accrued charges for the exceeded amount.

#### Evaluation of members' contribution (in cash and in kind)

According to the note of the Accounting Officer of the Commission, subsidies and contributions received from the European Union and other members are considered as investments.

For the whole life of IMI Joint Undertaking, the European Commission's Seventh Framework Program contributes €1 billion to the IMI research program. That amount will be matched by mainly in kind contributions (consisting mostly of research activities) worth at least another €1 billion euro from member companies of the European Federation of Pharmaceutical Industries and Associations (EFPIA).

Contributions in cash are evaluated through movements in bank account of the joint undertaking, which received money from the Commission and EFPIA for administrative expenses and awarding grants to beneficiaries.

In-kind contributions of EFPIA companies to the projects are calculated and reported according to the companies' respective usual principles and practices of accounting and management and in accordance with the conditions specified in the IMI grant agreement. Several EFPIA companies apply a certified methodology on in-kind methodology that has been accepted by IMI. Declared amounts are certified in due course through certificates on financial statements issued by independent auditors.

In addition, IMI carries out risk-based ex-post verifications on a limited sample of submitted financial statements. In accordance with IPSAS standards and generally accepted accounting principles, several items of the financial statements need to be valued on estimates calculated (i.e. by pro rata) by management on reliable information.

These estimates include accrued charges, as well as evaluation of in-kind contribution of EFPIA companies that have not yet been recorded at the date of the drawing up of this report.

#### Receivables

Receivables are evaluated at their liquidated value.

No provision for doubtful account is established for transactions between European institutions and bodies (consolidated entities).

#### > Provision

IMI JU makes provisions when there is a legal and justified obligation which results from a past transaction and if there is a probability that its own resources have to be consumed to settle this transaction. However, the provision amount should be estimated in a reasonable and reliable way.

#### > Revenues and expenses

Revenues and expenses are entered in accordance with the principles of accrual basis accounting. According to Article 11 of the statutes of IMI Joint Undertaking, "any financial interests yielded by the contributions paid by its Members shall be considered to be revenue of the IMI Joint Undertaking".

#### > Contingent liabilities and contingent assets

A contingent asset is a possible right that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Joint Undertaking.

#### A contingent liability is:

- a possible obligation, that arises from past events, and whose existence will be confirmed only
  by the occurrence or non-occurrence of one or more uncertain future events not wholly within
  the control of the Joint Undertaking, or
- a present obligation that arises from past events but is not recognized either because it is unlikely that the Joint Undertaking will use its own resources to settle the obligation or because the value of the obligation cannot be measured with sufficient reliability.

#### 3 NOTES ON FINANCIAL STATEMENTS 2013

#### 3.1 Non-current assets

Total of non-current assets amounted to EUR 192,402,902.87 in year 2013. The main part consists of long term pre-financing paid in favour of grants beneficiaries from 2009 till end 2013.

#### b) Operational expenses

It should be noted that by May 2014, 70 ex-post audits of beneficiaries and 3 audits of EFPIA companies' declared in-kind contributions had been finalised. A further 48 audits of beneficiaries and audits of two EFPIA companies' declared in-kind contribution were ongoing.

The amounts to be recovered or offset on the basis of these audit reports are established in line with the following criteria defined in Article 54 (1) of IMI JU's Financial Rules:

- a verification that the debt exists;
- the determination or verification of the reality and the amount of the debt; and
- the verification of the conditions in which the debt is due.

Recovery orders and amounts already offset by 15 May 2014 are reflected in the Accounts.

Operational expenses amount to EUR 227,377,453.75 in 2013, comparing with EUR 106,565,533.87 in 2012:

OPERATIONAL EXPENSES	2013	2012

TOTAL:	227,377,453.75	106,565,533.87

#### c) Other Administrative expenses

- Included in the total amount of EUR 2,023,385.76, are:
- EUR 499,346.48 related to IT (development and operational costs) covered by the development of the submission tool (ALTRAN-SOFIA) as well as hosting and outsourcing arrangements, support services, server rental, access to EC-platform (sTESTA). It should be noted that a cumulative amount of EUR 471,720.91 has been spent for development of IT tools since 2010.
- EUR 757,497.87 as external services non-IT, including organisation costs for evaluations of calls as well as external meetings, ex-post audit fees which amounted to EUR 292,288.89.
- EUR 385,693.85 related to publications and communications expenses.

#### d) Financial revenue and expenses

Cash at bank generated in 2013 an interest income of EUR 95,796.81 including an amount of EUR 42,055.03 received in January 2014, which is booked as "bank interest to be received".

Grants pre-financings have yielded interest income of EUR 54,072.68 but IMI JU had to pay to beneficiaries EUR 131,925.86 as Interest on late payment, due to a delay in receiving contributions from owners.

IMI JU received as reimbursement from other JU's EUR 13,027.37 for expenses regarding using of S-TESTA and other common facilities. After ex-post audits, several recovery order were issued (EUR 87,085.55) and EUR 34,402.86 is booked for potential recovery orders in 2014.

#### 3.6 Cash flow

IMI JU started year 2013 with a cash of EUR 7,986,303.90 and has an end cash balance of EUR 10,036,622.17. A net increase of cash and cash equivalent of EUR 2,050,318.27 which is justified by following movements:

- Increase in payments of pre-financing, cost claims and administrative matters (accounts payable),
- Increase in Accounts payable,
- Contribution from owners in cash for EUR 128,572,146.80 and in-kind of EUR 57,968,686.00.

# 4 REPORT ON BUDGETARY AND FINANCIAL MANAGEMENT FINANCIAL YEAR 2013

#### 4.1 **Budgetary principles**

The budget of IMI JU has been established in compliance with the principles of unity, budget accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management and transparency as set out in the IMI JU Financial Rules.

#### 4.2 Management information systems

IMI JU used the following software during 2013:

- ABAC budgetary system
- SAP accounting system and execution of payments
- DATAWAREHOUSE a financial reporting tool with the support of DG BUDG
- SOFIA Submission OF Information Application used for project management
- DORA Document management tool

These information systems allow efficient management of the IMI JU appropriations.

#### 4.3 Budget

Budget of IMI JU is divided in three titles:

- Title I covers staff expenditure such as salaries, training, costs associated with recruitment procedures and staff well-being;
- Title II covers the costs associated with functioning of IMI JU such as renting of premises, IT needs, expenses related to external communication, expert fees and costs of ex-post audits;
- Title III covers operational activities of IMI JU.

The 2013 budget was approved by the Governing Board on 21 December 2012 and adjustments were made based on the Decision of the Governing Board on carry over amounts of 4 February 2013.

On 2 December 2013, the Governing Board approved an amending budget 2013. The following changes were introduced:

- Cancelled commitment appropriations were re-entered in the budget in order to use available appropriations for Calls for proposals launched in 2013;
- Payment appropriation for Title III was lowered following the cut of the EU contribution for 2013 operational payments by the budgetary authority;
- Correction of bank interest was made for both payment and commitment appropriation.

The overall budget for IMI operational activities was foreseen at 960 million euros per founding member. Until the end of 2013 the commitment of EFPIA for operational activities reached 982.1 mil. and the commitment of the EU reached 970.4 mil. The 10.4 mil. increase in the EU commitment comes from the transfer of unused funds originally foreseen for running costs as well as from the interest yielded on IMI bank account.

#### 4.4 Revenue

IMI JU's revenue for the year:

	Amount (in EUR)						
Source of revenue	20	13	2012				
	Budget	Cashed	Budget	Cashed			
EU Contribution from European Commission	125,829,159.00	125,829,159.00	97,783,960.00	97,783,960.00			
Contribution from EFPIA	4,200,000.00	2,742,987.80	4,700,000	4,067,578.15			
Bank interest	104,808.00	95,796.81	50,000	474,655.28			
Miscellaneous income		100,112.92					
Interest on pre-financing		54,072.68		52,864.52			
TOTAL		128,822,129.21		102,379,057.95			

The difference between the budgeted and cashed contribution from EFPIA comes from the fact that EFPIA reimburses real running costs incurred in a given year rather than paying based on the budgeted amounts. The balance is settled in the following year as can be seen from the table below.

Budgeted bank interest in 2013 is higher due to the correction of bank interest cashed in previous years.

#### 4.5 Expenditure

#### 4.5.1 Administrative expenditure (Title I and Title II)

#### Title I

In 2013 IMI JU had 29 temporary agents and 7 contract agents. Following expenditure is reported under Title I: salaries, insurance, taxes, allowances, training costs, mission costs, medical service fees, entertainment and representation.

#### Title II

Other administrative expenditure is reported under Title II including:

- rent and related charges;
- development of IT tools (SOFIA, DORA, etc.);
- ABAC fees;
- purchase, rent and maintenance of equipment;
- purchase of software;
- postage and telecommunications fees;
- office supply;
- costs of formal meetings, workshops, call evaluations and interim reviews including renting of facilities and payments of experts;
- costs of ex-post audits;
- studies, etc.

#### **Procurement**

The majority of IMI JU's tendering needs are in the field of external communication, IT and ex-post audit services. The tender and contract management is being simplified as far as possible through the use of multiannual framework contracts. IMI JU also cooperates with other Joint Undertakings in tendering services in order to avoid duplication of administrative work. Where possible, IMI JU is party to European Commission's framework contracts to reduce administrative burden created by proprietary contract management.

In 2013, IMI mainly relied on these existing contracts for its procurement needs. No major new procurement procedures were launched under IMI's administrative budget in 2013. The only larger procurement procedure was carried out for a service contract for consultancy services to set up a platform for stakeholder involvement to optimise project outcomes. This contract was concluded against IMI's operational budget.

#### Administrative expenditure – budget execution

Administrative budget was executed applying principles of sound financial management. As an example, IMI planned to improve working conditions in an open space for its staff which would require some works and purchase of furniture. For this activity, budget was foreseen under Chapter 22. These plans were postponed taking into consideration the proposal of IMI2 with estimated start date in 2014.

Meetings were mostly organised in Brussels or in parallel with other meetings which considerably lowered costs of formal meetings (Chapter 25), workshops (Chapter 26) and events (Chapter 27).

For Title I, it was expected that the indexation of salaries (2011) will have to be paid at the end of 2013. The information that the indexation will not be paid in 2013 came only the last days of December when it was too late to use the reserved funds for other purposes.

It is important to note that the EU part of unused appropriations for running costs will be made available for operational activities under 2014 budget.

#### 4.5.2 Operational expenditure (Title III)

Operational expenditure on Title III covers all the expenses linked to the Research Agenda of IMI JU. In 2013, intermediate payments for Call 1, 2, 3 and 4 projects have been made as well as pre-financing for projects of Call 7, Call 8 and one project of Call 6. These payments consumed 99.43% of the payment appropriation available for 2013.

Commitment appropriation was fully consumed by launching Call 9, Call 10, Call 11 and ENSO Call 2013 (global commitments) and one individual commitment for consultancy service to set up a platform for stakeholder involvement to optimise IMI projects' outcomes (EUR 200,000).
